

Application No.: 10/624013

Case No.: 54060US011

Remarks

Claims 1 to 11 are pending. A response to the Office Action with a mailing date of April 1, 2004, was faxed to the U.S. Patent Office on June 30, 2004. Included in that response were copies of the 371 transmittal and the filing receipt for Application Serial No. 09/623,750. The present application is a divisional application filed from 09/623,750.

Applicant received a call from the Examiner requesting the attached documents be resent, along with a report from the Applicant's facilities providing the priority information of the present application. Included with this response, Applicant is resending the 371 transmittal and the filing receipt from 09/623,750; and a report/chart from Applicant's office showing that the present case claims priority to the 09/623,750 case, which claimed priority to a GB case filed on March 9, 1998.

To assist in deciphering the report/chart the Applicant is providing a detailed listing of the parentage of the present application.

GB application, 9804967 was filed March 9, 1998. One year later, on March 9, 1999, PCT application US99/05053 was filed. At the 30 month national stage, U.S. application 09/623,750 was filed using the international filing date as the filing date. On July 21, 2003, U.S. application 10/624,013 (the present application) was filed as a divisional application from 09/623,750.

In view of the above, it is submitted that the application is in condition for allowance. Reconsideration of the application is requested. If the Examiner has any questions regarding this supplemental amendment, please call the attorney of record at 651-733-2059.

Respectfully submitted,

July 28, 2004

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
